

Administrator guide

For principals, deputy principals, directors of studies and school administrators

Everything needed to set a school up on Skulbase and run it through the term: the school's calendar and grading, the modules it runs and the duties staff hold, classes and subjects, staff, learner and parent accounts, marks and report cards, attendance, fees, and messages to parents.

Contents

1. Getting started

- Register your school
- Activate your account with an invite code
- Sign in
- Finding your way around

3. Setting up the school

- School profile and report card details
- Academic calendar
- Grading systems
- Classes
- Subjects and subject teachers
- Choose what your school runs (modules)
- Give staff their duties
- Online fee payments (optional)

5. Exams and marks

- Enter or correct marks
- Using the mark sheet
- Upload marks from a spreadsheet or a photo
- Release results to learners
- See a class's results

7. Report cards and results for parents

- Generate report cards
- Text results to parents
- Compare terms

2. Your dashboard

- Reading the dashboard
- Across the school

Where each module is explained

14. Getting help

Where to get help

Getting started

A school is set up once, by its administrator. After that, you add the people and everyone signs in with their own account.

1.1 Register your school

The first administrator creates a Skulbase account and registers the school. Skulbase then checks and approves the school before it goes live.

After creating your account, choose “Register a School”.

- 1 Create your account**
 Go to skulbase.com and choose Get Started. Enter your name, email address and a password, or continue with Google.
- 2 Choose “Register a School”**
 The welcome screen asks how you will use Skulbase. Teachers and learners join with an invite code instead; you are setting up a new school.
- 3 School information**
 Enter the school’s name, email, phone number and postal address. These print on report cards and receipts, and you can change them later in Settings.

4 Academic calendar

Enter the current academic year (for example 2026) and the current term.

5 Curriculum

Tick every curriculum and grade your school teaches: CBC, 8-4-4, or both if you still have 8-4-4 classes. Only these appear when marks are entered.

6 Wait for approval

Submit the request. While Skulbase approves it you can “Explore while you wait” on a demo school to see how everything works. You are told as soon as your school is approved.

1.2 Activate your account with an invite code

Teachers, staff and learners do not sign up on their own. Your school adds you, and you get a personal invite code (or a link that has the code in it) to set up your login.

Activating an account: type the invite code from your school, or open the link they sent you.

1 Get your code

Your school administrator gives you a six-character invite code, for example A7X3K9, by SMS, WhatsApp, on paper, or as a link. The code only works for your account.

2 Open the activation page

Tap the link you were sent, or go to skulbase.com, choose Sign in and then “Activate your account”. If you opened a link, the code is already filled in.

3 Check it is you

Press Continue. Skulbase shows the name the school registered. If it is not you, choose “Not you?” and ask the school for the right code.

4 Choose how you will sign in

Pick a username (one is suggested for you) and a password of at least 8 characters, or continue with Google. Adding an email address lets you reset your password yourself later.

5 You are in

You are signed in straight away and land on the home page for your role.

 **Good to know:** Each code can be used once. If yours says it has expired or was already used, ask your administrator to reset your account; they get a fresh code in seconds.

1.3 Sign in

Once your account is active, sign in with your email address or username and your password, or with Google if you activated with Google.

The sign-in page. “Forgot password?” sends you a code by email.

1 Go to the sign-in page

Open skulbase.com and choose Sign in.

2 Enter your details

Type your email address or username, then your password, and press Sign In. Or press “Sign in with Google”.

3 Forgot your password?

Choose “Forgot password?”, enter your email address, and type the six-digit code we email you along with a new password. This also works if you have only ever used Google, and afterwards both ways work.

 **Tip:** Save skulbase.com to your phone’s home screen. It opens like an app and remembers you are signed in.

1.4 Finding your way around

The menu only shows the pages your role can use. On a computer it runs down the left-hand side; on a phone the main pages sit in a bar along the bottom.

- On a computer, the arrow at the top of the menu makes it narrower (icons only) or wider (icons and names). Skulbase remembers your choice.
- Press the / key, or tap “Search menu”, to jump to any page by typing part of its name.
- Your name at the bottom of the menu opens your account menu: switch between light and dark appearance, or sign out.
- If you hold more than one role (for example an administrator who is also a class teacher), use “View as” in the account menu to switch views.
- On a phone, the bottom bar shows your four most-used pages. Everything else is under More.

Your dashboard

The dashboard is the school at a glance: where you are in the term, what needs doing, and the numbers that matter.

2.1 Reading the dashboard

The top of the dashboard says where the school is in its own calendar, then lists anything waiting for you, then the key figures and shortcuts to every common task.

The administrator dashboard.

- The term line shows the current term, the week you are in, how many days are left, and a progress bar. During holidays it shows when the next term opens.
- “Needs your attention” lists what only the school can move forward: exams ready to release, papers still missing marks, subjects with no grading scale, learners not on today’s register, and overdue fees. Each item has a button that takes you straight there. When there is nothing, it says “All caught up”.
- The coloured figures are learners, teachers, classes, pass rate, present today and fees collected. Tap any figure to open its page.
- Quick actions give every common task the same weight: enter marks, report cards, attendance, add a learner or staff member, post an announcement, set an assignment, record a payment.

- Further down: each class's latest results, how classes compare, exams coming up in the next three weeks, attendance and fee summaries, and recent activity.
- The search box finds a learner by name or admission number.

2.2 Across the school

When your school runs modules such as boarding, health, expenses or transport, live figures from each appear at the very top of the dashboard: learners in the sick bay, learners out on exeat, vouchers to approve, buses on the road, papers awaiting moderation and leave requests. Tap a tile to open its page.

7 of 9 done — the rest takes a few minutes.

☐ Add your school logo
It prints on every report card.

☒ Set the current term and its dates

☒ Create your classes

☒ Choose the subjects you offer

☒ Add teachers

☐ Give every class a class teacher
1 class without one. Class teachers write report-card remarks.

☒ Assign subject teachers

☒ Enrol students

Open settings

Assign

The setup checklist. Ticked items are done.

- Add your school logo; set the current term and its dates; create your classes; choose the subjects you offer; add teachers; give every class a class teacher; assign subject teachers; enrol students; add support staff.
- Close the checklist with the × once you no longer need it.

Setting up the school

Do these once at the start, and revisit them at the start of each year. The order matters: classes need grades, subjects need classes, and learners need classes.

3.1 School profile and report card details

Settings → School profile holds everything a report card prints about the school.

The screenshot shows the 'School settings' page in the Skulbase administration interface. The left sidebar contains a menu with 'Settings' highlighted. The main area has a header 'ADMINISTRATION School settings' and a subtitle 'Your school's profile, modules, staff duties, academic calendar, grading and payments.' Below this is a horizontal tab bar with 'School profile' selected. The form includes a 'Logo' section with an 'Upload logo' button, a 'School name' field with 'Demo Academy', an 'Address' field with 'Nairobi', a 'Phone' field with '0700 000 000', and an 'Email' field with 'office@demo.school'. A 'Report cards' section has a text area with 'Learning for life' and a 'Saved' button.

Settings → School profile.

1 Logo

Upload a square PNG with a clear background. It prints on report cards and receipts.

2 Name and contacts

Check the school name, address, phone and email.

3 Report cards

Add the school motto (printed under the name), the principal's name and signature (printed on the signature line), and the pass mark. The pass mark (for example 50%) decides what counts as a pass everywhere in Skulbase: dashboards, analytics and learners' results.

4 Positions

Choose whether CBC report cards show positions, and how Senior School (Grades 10–12) learners are ranked and grouped by subject combination.

3.2 Academic calendar

Settings → Academic calendar holds your years and terms. Exactly one term is current: it is what the dashboard, attendance and report cards treat as “now”.

Settings → Academic calendar.

1 Add the year

Press “Add year” and enter the year, for example 2027.

2 Add its terms

Add each term with its name, start and end dates. Optionally add the mid-term reopening date (printed on mid-term report cards) and the date school reopens after the term (printed as “Next term begins”).

3 Make a term current

Press “Make current” on the term you are in. Do this at the start of every term.

Good to know: If no term is current, reports and attendance cannot tell which term it is. The dashboard reminds you.

3.3 Grading systems

Settings → Grading systems decides the grade printed for each mark. There are two kinds: subject grading (the grade for each subject's score) and overall grading (the grade for a learner's overall mean).

ADMINISTRATION
School settings
Your school's profile, modules, staff duties, academic calendar, grading and payments.

School profile Modules Roles & duties Academic calendar **Grading systems** Curriculum

How grading works — two kinds of grading system:

OVERALL GRADING SYSTEM
-- Not set (use the built-in default) --
Grades each student's total points into an overall grade on report cards. Create an "Overall grading" system below to use this.
Not set — cards fall back to the built-in mean-points ladder (A from 11.5 mean points, A- from 10.5, and so on).

Grading Systems + Create Grading System

NAME	TYPE	ACTIONS
CBC 4-point CBC: System default	Subject (%)	View

Settings → Grading systems.

1 Add a subject grading system

Choose the curriculum level, give it a name, and list each grade with its score range, points and remark. CBC schools typically use EE, ME, AE and BE; 8-4-4 schools use A to E.

2 Choose its subjects

Pick which subjects use this system. A subject with no grading system prints no grade, and the dashboard lists it under “Needs your attention”.

3 Add an overall grading system (8-4-4)

This grades each learner's mean points on report cards and mark sheets.

3.4 Classes

The Classes page lists every grade you teach and its classes (streams), for example Grade 7 East and Grade 7 West. Learners, teachers, mark sheets and report cards all belong to a class.

Classes: each grade and its streams, with its class teacher and number of learners.

1 Add a grade

Press “Add grade” and choose it from your curriculum.

2 Add its classes

Add each stream. A grade with a single class still needs one class.

3 Check class teachers

Each class shows its class teacher, or “No class teacher”. Class teachers are assigned when you add or edit a teacher on the Users page.

3.5 Subjects and subject teachers

The Subjects page has three tabs: the subjects your school offers, Senior School subject combinations, and which teacher teaches which subject in which class.

SUBJECT	CATEGORY	TYPE	TAUGHT IN	GRADING	
English ENG_JS	Languages	Core	CBC Junior School	CBC 4-point	
Kiswahili KISW_JS	Languages	Core	CBC Junior School	CBC 4-point	
Mathematics MATH_JS	Mathematics	Core	CBC Junior School	CBC 4-point	
Integrated Science ISC_JS	Sciences	Core	CBC Junior School	CBC 4-point	
Social Studies SST_JS	Humanities	Core	CBC Junior School	CBC 4-point	

Subjects: tick the subjects you offer.

1 Choose the subjects you offer

On the Subjects tab, tick each subject your school teaches for each level.

2 Senior School combinations (CBC Grades 10–12)

On the Subject combinations tab, create the combinations learners can take.

3 Assign subject teachers

On the Subject teachers tab, give each subject in each class its teacher. A teacher only sees the classes and subjects they are assigned to when entering marks.

3.6 Choose what your school runs (modules)

Settings → Modules switches parts of Skulbase on and off for your school. A module that is off disappears from menus and dashboards for everyone; its data is kept, and switching it back on brings everything back.

Settings → Modules: start from a preset, then switch individual modules on or off.

1 Start from a preset

Pick the kind of school you run: day primary or junior school, day secondary, boarding secondary, or private academy with transport. The preset switches on the modules that kind of school usually needs.

2 Fine-tune

Switch individual modules on or off: academics (exams, report cards, attendance, analytics, assignments, calendar, exam paper bank, timetable, professional records, CBC assessment), finance (fees, billing, expenses), welfare (boarding, health, discipline), operations (transport, live bus tracking, library, inventory) and people (parent portal, staff leave).

3 Dependencies

Some modules need another first (for example report cards need Exams & Marks, and live tracking needs Transport); these are turned on together, and turning one off turns off what depends on it.

Tip: A module marked “Not included in your plan” needs to be enabled by Skulbase first.

3.7 Give staff their duties

Settings → Roles & duties gives people the jobs they hold on top of their account type: a teacher can also be the DOS and a house patron; a bursar, nurse or driver signs in as Staff and gets their pages from their duty.

Settings → Roles & duties, with “What each duty can do” below.

1 Assign a duty

Press “Assign duty”, choose the person and the duty: Principal, Deputy Principal, DOS, HOD, Timetabler, Exams Officer, Bursar, Accountant, Matron, Patron, School Nurse, Discipline Master, Transport Manager, Driver, Librarian, Storekeeper or HR / Secretary.

2 Limit it (optional)

Some duties can be limited to one class, dorm or route (for example a patron to their own dorm). Leave it empty for the whole school.

3 Set dates (optional)

Give a start and end date for a duty that only lasts a term, such as a duty roster.

- “What each duty can do” lists exactly what every duty unlocks.
- The person sees their new pages the next time they open Skulbase. Each duty has its own guide under Help & guide.
- Duties only show pages for modules the school has switched on.

3.8 Online fee payments (optional)

Settings → Payments lets learners and parents pay fees from the learner's Fees page. Payments are matched to the right learner automatically.

The screenshot shows the 'School settings' page under the 'ADMINISTRATION' section. The left sidebar contains a search menu and a list of navigation items: Dashboard, Exams & Marks, Report Cards, Attendance, Analytics, Calendar, Timetable, Exam Papers, Professional Records, Users, Settings (highlighted), and Help & guide. The user profile 'Mary Wambui' is shown at the bottom of the sidebar. The main content area is titled 'School settings' and includes a subtitle 'Your school's profile, modules, staff duties, academic calendar, grading and payments.' Below this is a horizontal menu with tabs: School profile, Modules, Roles & duties, Academic calendar, Grading systems, and Curriculum. A dropdown menu is open, showing 'How online fee collection works:'. The 'Payment Provider' section has three options: 'None' (No online payments — record fees manually only.), 'M-Pesa (Direct)' (Your own Safaricom Paybill/Till via the Daraja API.), and 'Pesapal' (M-Pesa, cards, and more via a Pesapal merchant account — no Safaricom developer app needed.). The 'Bank Transfer' section is currently disabled and includes a text description: 'Show your bank account(s) as a pay-in option alongside. Deposits are always reconciled manually — there's no automatic bank webhook, so record each one under Fees once it clears.' Below this, there is a form to add a bank account with fields for Bank (KCB Bank), Account Name (e.g. Green Hills Academy), Account Number, and Branch (optional) (e.g. Westlands). A 'Make Primary' button and a delete icon are also present.

Settings → Payments.

- Choose one automated provider: M-Pesa (direct, with your Paybill or Till number and Daraja keys) or Pesapal. Learners then see a single Pay button.
- Add your bank accounts to show bank transfer details on the learner's Fees page.
- Payments that could not be matched to a learner (for example a wrong account number) appear under “Unmatched payments” for you to assign.

Good to know: Test with the sandbox environment first, then switch to production (live) once a test payment works.

People and accounts

Everyone at the school has a record on the People page. Staff and learners who need to sign in also get an account, created on the Users page or when you add them, with an invite code to activate it.

4.1 Add learners

People → Students is the school roll. Add learners one at a time or import a whole class from Excel or CSV.

The screenshot shows the 'People' page in the Skulbase admin workspace. The left sidebar contains navigation links: Dashboard, ACADEMICS (Exams & Marks, Report Cards, Attendance, Analytics, Calendar, Timetable, Exam Papers, Professional Records), Users, Settings, and Help & guide. The main content area is titled 'People' and includes tabs for Students, Staff, and Parents. Below the tabs are four summary cards: Students (24 on the roll), Active (23 currently enrolled), Left (1 transferred, graduated o...), and No phone (4 guardian can't get SMS). A search bar and filters for 'All classes' and 'Any status' are present. Below the filters, a table lists 24 students with columns for Student, Class, Guardian, and Status.

STUDENT	CLASS	GUARDIAN	STATUS
AO Amani Otieno 2400	Grade 7 East	Mr Otieno No phone	Active
WK Wanjiku Kamau 2401	Grade 7 West	Mrs Kamau 0722 100 401	Active
KO Kevin Ouma 2402	Grade 8 East	Mr Ouma 0722 101 402	Active
FC Faith Chebet 2403	Grade 9	Mrs Chebet 0722 102 403	Active

People → Students: search, filter by class or status, and add or import learners.

1 Add one learner

Press “Add student”. Enter their name, admission number, class, gender and date of birth, and their guardian’s name and phone number (used for SMS).

2 Import a class list

Press Import, choose the class everyone in the file joins, and upload your Excel or CSV file. Any rows with problems are listed so you can fix them and import again.

3 Save the invite codes

After adding learners, their invite codes are shown once. Copy them or download the CSV before closing, and give each learner their code.

- Filter by class, status (active, transferred, graduated), pathway or subject combination, or search by name, admission number or guardian.
- “Pathways” sets Senior School pathways for several learners at once.

4.2 The Add student form

Guardian phone numbers matter: they are where results, absence notices and announcements are texted.

The screenshot shows a modal window titled "Add student" with a close button (X) in the top right corner. The form is divided into several sections:

- First name *** and **Last name ***: Text input fields.
- Class ***: A dropdown menu with the text "Choose a class".
- Admission no.**: A text input field with the text "Optional" and a note below it: "Leave empty if the school has not assigned one yet."
- Gender**: A dropdown menu with a hyphen "-" as the selected option.
- Date of birth**: A text input field with the format "mm/dd/yyyy" and a calendar icon.
- Curriculum**: A dropdown menu with a hyphen "-" as the selected option.
- GUARDIAN**: A section header.
- Guardian name**: A text input field.
- Guardian phone**: A text input field with the number "0712345678" and a note below it: "Used for SMS results and absence alerts."

At the bottom right of the form are two buttons: "Cancel" and "Add student".

Adding one learner.

4.3 Import learners from a spreadsheet

The fastest way to enrol a class. Every learner in the file joins the class you choose.

Importing a class list.

 **Tip:** Put one learner per row, with columns for first name, last name, admission number, gender and guardian phone.

4.4 Staff and accounts

The Users page lists everyone with an account. “Add user” creates an account for a teacher, learner, administrator or other staff member and gives you their invite code.

Add User

Add a phone number. The user will receive an invite code to set up their own account.

First Name *

Last Name *

Phone Number *

Sequence # *

Increment for same-name users

Role *

CLASS TEACHER ASSIGNMENT (OPTIONAL)

Class

SUBJECTS TAUGHT
The grades and subjects this teacher enters marks for.

Grade	Subject	
Select grade	Select subject	X

Add user: choose the role. For a teacher, you can also make them a class teacher and list the subjects they teach.

1 Add the person

On Users press “Add user”. Enter their first and last name and phone number. Use the sequence number only when two people have the same name.

2 Choose the role

Teacher, Student, Other Staff (for example a bursar or secretary) or Admin.

3 For a teacher

Optionally choose the class they are class teacher of, and add the grades and subjects they teach.

4 Share their invite

Skulbase shows their username, invite code and an activation link. It tries to send the code by SMS; you can also press “Send on WhatsApp” or copy it.

- Open anyone on the Users page to see their full profile, edit their account, or reset it (which issues a new invite code, for example when someone forgets their password and has no email address).
- “Print activation codes” prints codes for everyone who has not activated yet, for example to hand out to a class.

4.5 Give parents their own login

With the Parent Portal module on, parents can sign in to follow each of their children. You link a parent to a learner on the Parent accounts page, and the parent activates their account with the invite code.

Parent accounts: choose a learner, see who is linked, and link another parent.

- 1 Choose the learner**
Pick the learner. Parents already linked to them are listed with their relationship, phone and whether their account is active.
 - 2 Link a parent**
Enter the parent's first and last name, phone number and relationship (mother, father, guardian, sponsor), and press "Link parent".
 - 3 Give them the code**
Skulbase shows an invite code. The parent activates their account with it on the activation page, exactly like a teacher or learner.
- A parent with several children at the school is matched by phone number, so they get one login that shows all their children.
 - Unlinking a parent stops them seeing that child.

4.6 Staff and parents directories

People → Staff lists teachers and other staff with their roles, subjects and classes. People → Parents is built from guardian details on learners’ records: one card per guardian with their children, and buttons to call or email.

Exams and marks

Marks are entered by teachers (and administrators) on Exams & Marks, checked, and then released so learners can see them. As administrator you can do everything a teacher can, for every class and subject, and you also add exams to the term.

5.1 Enter or correct marks

Marks go in on Exams & Marks, on the “Enter & Correct Marks” tab. You pick the term, the exam, the class and the subject, and a mark sheet opens with every learner in the class.

Choose the term (the current one is marked NOW), then the exam, then the class and subject.

1 Open Exams & Marks

Choose Exams & Marks in the menu. The “Enter & Correct Marks” tab is open.

2 Choose the term

The current term is selected for you and marked NOW. Pick another term to correct older marks.

3 Choose the exam

Tap the exam, for example Midterm or Endterm. Only exams your school has set up for that term are shown.

4 Choose the class and subject

Pick the class, then the subject. Teachers only see the classes and subjects they teach.

5 Open the mark sheet

Press “Open mark sheet”. Saved marks are already filled in.

5.2 Using the mark sheet

The mark sheet lists every learner with a box for their score. The grade fills itself in from your school’s grading system.

Exams & Marks
Enter or correct marks, review results, and release them to learners.

Enter & Correct Marks Results & Reports Release Results

ENTERING MARKS FOR
Mathematics · Grade 7
Term 3 · Endterm · Out of 100

Split into papers Change exam, class or subject

Mark sheet 9 of 12 entered 75% · Out of 100 Online

Saved marks are already filled in. To correct a mistake, search for the learner, type the right score over the old one and press **Save changes**. Use **Undo** to put a mark back, or the bin to remove a mark for a learner who did not sit the exam.

Find a learner by name or adn All streams All 12 Not entered 3 Entered 9 Unsaved 0

#	LEARNER	SCORE /100	GRADE	REMARKS	STATUS
1	Amani Otieno 2400 · Grade 7 East	33	AE — App	Optional remark	✓ Saved
3	Esther Nyambura	65	ME — Me	Optional remark	✓ Saved

All changes saved · 3 learners still without a mark

Saved

The mark sheet: type a score, press Enter to move to the next learner, then Save changes.

1 Type the scores

Click the first score box, type the mark and press Enter to jump to the next learner. The grade appears as you type. Remarks are optional.

2 Save

Press “Save changes” at the bottom. The bar tells you how many learners still have no mark.

3 Correct a mistake

Find the learner with the search box, type the right score over the old one, and save. Undo puts a mark back as it was; the bin removes a mark for a learner who did not sit the exam.

4 Filter the list

Use the tabs (All, Not entered, Entered, Unsaved) and the stream filter to find who is left.

- “Online” at the top right shows the sheet is connected. If the network drops, your typing is kept on this device and saved when you are back online.
- Scores are out of the exam’s maximum (shown at the top, for example “Out of 100”).
- A subject with several papers can be split with “Split into papers”; each paper then gets its own column and the final mark is worked out for you.

5.3 Upload marks from a spreadsheet or a photo

Instead of typing, you can upload an Excel or CSV file, or take a photo of a handwritten mark sheet.

“Upload file” reads marks from Excel or CSV; “Scan sheet” reads a photo of a paper mark sheet.

1 Upload a file

On the mark sheet choose “Upload file”, pick your Excel or CSV file, and check the columns Skulbase detected (learner, admission number, score). Press “Validate & Preview”, check the rows, then save.

2 Scan a paper sheet

Choose “Scan sheet” and take or upload a clear photo. Skulbase reads the names and scores; check every row, fix anything misread, and confirm. Nothing is saved until you confirm.

 **Tip:** Admission numbers are the most reliable way to match rows to learners. Keep them in your spreadsheet.

5.4 Release results to learners

Marks stay private to staff until they are released. Releasing a subject lets learners see its marks in their portal and on the report card's QR check.

Release Results: each subject shows how many learners are marked and whether learners can see it.

1 Open the Release Results tab

On Exams & Marks choose “Release Results”.

2 Choose the class, term and exam

The list shows every subject for that exam and how many learners have marks.

3 Check the ranking preview

Scroll down to see the class ranking the release would produce, and any learners with missing papers (a missing paper counts as 0).

4 Release

Release a single subject, or all of them at once. Released subjects show “Learners can see”.

- You can still correct marks after releasing; learners see the corrected mark.
- “Withdraw” hides a subject from learners again at any time.

5.5 See a class’s results

The “Results & Reports” tab on Exams & Marks shows how a class did: every subject side by side, one exam at a time, the analysis, and individual report cards.

The screenshot shows the 'Exams & Marks' interface in the 'Admin workspace' of 'Demo Academy'. The left sidebar contains navigation options: Dashboard, Exams & Marks (selected), Report Cards, Attendance, Analytics, Calendar, Timetable, Exam Papers, Professional Records, Users, Settings, and Help & guide. The user is logged in as Mary Wambui (Admin).

The main content area is titled 'ACADEMICS Exams & Marks' with the subtitle 'Enter or correct marks, review results, and release them to learners.' It features three tabs: 'Enter & Correct Marks', 'Results & Reports' (selected), and 'Release Results'.

Under the 'Results & Reports' tab, there are two dropdown menus: 'Class / Stream' set to 'Grade 7 East' and 'Exam' set to 'English Midterm — English (MIDTERM)'. Below these, a section titled 'English · English Midterm' shows 'Out of 100'.

The 'Results status' is 'Released', with a 'Withdraw' button. Below this, there are tabs for 'All subjects', 'Single exam' (selected), 'Analysis', 'Quick entry', and 'Reports'.

At the top of the results table, it says '11 students · Tap the pencil to edit a result'. There are buttons for 'Export CSV' and 'Export PDF'. A message states: 'Spotted a wrong mark? Tap the pencil on the learner's row to fix it, or open the mark sheet to correct several at once.' with a 'Correct marks' button.

POSITION	STUDENT	ADM NO	SCORE	GRADE	TOTAL PTS	OVERALL	REMARKS	EDIT
1	Amani Otieno	2400	88%	EE	0	—	—	

Results & Reports: choose a class, then an exam, to see its results.

- Choose a class, then an exam, to see the broadsheet and rankings.
- Click a learner to download their PDF report card, or generate the whole class at once.

Setting up exams

Each term's exams are created once, and every subject in every class gets its own exam to enter marks against.

6.1 Add exams to the term

On Exams & Marks, the “More” button next to the exams opens the exam menu.

Add exams to this term: each one creates an exam for every subject in every class.

- School exams: Opener, CAT, Midterm, Endterm and others. Pick one to create it for every subject in every class for the term.
- External and mock exams: zone, sub-county, county and national exams and mocks.
- Tools: fill in the term's exams for subjects added since they were set up, or create a single exam for one subject and class.

Report cards and results for parents

Report Cards turns released marks into printable report cards and mark sheets, and texts results to parents.

7.1 Generate report cards

Choose the class, term and exam once; then pick what to produce.

Report cards
Download report cards and mark sheets, text results to parents and compare terms.

Report scope Ready — pick an action below

Class * Term * Title on the card Card design

Optional. Replaces the exam name. Formal navy & gold with a grade seal, class comparison and grading scale

Which exam should the reports show? * Report cards, the mark sheet and the SMS all use this exam.

Midterm Most recent 7 of 7 subjects entered **Endterm** 5 of 7 subjects entered

2 Generate & share

- Whole class**
Every report card for the class in one download.
Generate & download
- One learner**
A single learner's report card.
Choose learner
- Mark sheet**
Ranked subject scores for the whole class.
Download mark sheet
- SMS to parents**
Text each guardian their child's results.
Send SMS
- Compare terms**
How the class moved across terms.
Compare

Report cards: choose the scope, then an action.

1 Choose the scope

Pick the class and the term. Optionally type a title for the card (for example “Mid Term 1 Report”) and choose a card design.

2 Choose the exam

Each exam shows how many subjects have marks. “Most recent” is suggested. Report cards, the mark sheet and SMS all use this exam.

3 Whole class

Press “Generate & download” for every learner’s card in one PDF, ready to print.

4 One learner

Press “Choose learner” to download a single card.

5 Mark sheet

Downloads the ranked subject scores for the whole class.

- Class teacher and principal comments are added under “Comments on the cards” and print on each learner’s card.
- Each report card carries a QR code. Scanning it opens a page that shows the approved results, so parents and others can check a card is genuine.
- Senior School classes can split the class download by subject combination.

7.2 Text results to parents

“SMS to parents” sends each guardian their child’s results for the chosen exam.

Choose which learners’ guardians to text, check the example message, and send.

1 Open it

With the class, term and exam chosen, press “Send SMS”.

2 Choose learners

Everyone is selected; untick anyone to leave out. Learners without a guardian phone number are skipped.

3 Check and send

Read the example message, then confirm. SMS costs apply per message.

7.3 Compare terms

“Compare terms” shows how a class’s average and pass rate moved between two terms, overall and subject by subject.

Compare two terms for a class.

Attendance

Class teachers usually take the register; administrators can take or correct it for any class.

8.1 Take the daily register

Attendance holds one register per class per day. Mark each learner Present, Absent, Late or Excused, add a reason if you like, and let guardians of absent learners know by SMS.

ACADEMICS Attendance
Take the daily register, add reasons for absence and let guardians know.

Class: Grade 7 East Day: 09/27/2026 Today

Grade 7 East · Sunday 27 September 2026

PRESENT	ABSENT	LATE	EXCUSED	ATTENDANCE
7	1	1	0	89% 3 unmarked

Search name or admission no. [] Mark 3 unmarked present [] Notify guardians [] PDF []

All 12 Unmarked 3 Present 7 Absent 1 Late 1 Excused 0

1	Amani Otieno 2400	Present	Absent	Late	Excused	[]
2	Wanjiku Kamau 2401	Present	Absent	Late	Excused	[]
3	Kevin Ouma 2402 - Unwell	Present	Absent	Late	Excused	[]

3 students not marked yet [] Saved

The register: totals at the top, one row per learner, and a Save bar at the bottom.

1 Open Attendance

Choose Attendance in the menu. A class teacher's own class opens straight away; otherwise pick the class.

2 Check the day

Today is selected. Use the arrows or the date box to fill in an earlier day.

3 Mark each learner

Tap Present, Absent, Late or Excused on each row. To save time, press "Mark N unmarked present" and then change only the exceptions.

4 Add a reason (optional)

The note icon at the end of a row adds a reason, such as "Unwell". It shows under the learner's name.

5 Save

Press Save at the bottom. Unsaved changes are kept if you switch class or day by mistake: you are asked first.

6 Tell guardians

Press “Notify guardians” to text the guardian of every learner marked absent. You see who will be texted before anything is sent.

 **Tip:** PDF downloads the day’s register for printing or filing.

Fees

Fees tracks what each learner has been billed for the term, what they have paid, and what is still owed. Administrators, and staff given the Bursar or Accountant duty, see the Fees page; learners see their own fees in their portal. Billing from fee structures, bursaries and expenses are in the Bursar and finance guide.

9.1 Fee records

The Fee records tab shows the term's totals (expected, collected, outstanding, overdue), a collection progress bar, and one row per learner.

The screenshot shows the 'Fees' page in the Skulbase Admin workspace. The left sidebar contains navigation links for Dashboard, Exams & Marks, Report Cards, Attendance, Analytics, Calendar, Timetable, Exam Papers, Professional Records, Users, Settings, and Help & guide. The main content area is titled 'FINANCE Fees' and includes a description: 'Bill students each term, record payments and track what is still owed.' A 'Term' dropdown is set to 'Term 3 · 2026', with 'Export' and '+ Add record' buttons. Below this are four summary cards: EXPECTED (KSh 810,000, 18 records), COLLECTED (KSh 456,000, 56% collection rate), OUTSTANDING (KSh 354,000, unpaid balance), and OVERDUE (KSh 0, 0 overdue record(s)). A 'Collection progress' bar shows 56% collected. Below the bar is a search bar for 'Search student or admission no.' and filters for 'All statuses' and 'All classes'. A table lists 18 records, with the first three shown:

STUDENT	EXPECTED FEE	PAID	BALANCE	STATUS	LAST PAYMENT ACTIVITY	
Amani Otieno 2400 · Term 3	45,000	45,000	0	Paid	— Just now	Pay History Edit Delete
Wanjiku Kamau 2401 · Term 3	45,000	20,000	25,000	Partial	— 1d ago	Pay History Edit Delete
Kevin Ouma 2402 · Term 3	45,000	0	45,000	Pending	— 2d ago	Pay History Edit Delete

Fees → Fee records for the chosen term.

- Choose the term at the top. Search by learner or admission number, or filter by status and class.
- “Add record” bills one learner. “Export” downloads the list as a spreadsheet.
- Each row has Pay (record a payment), payment history (with receipts), edit and delete.

9.2 Bill a whole class at once

The Batch entry tab bills every learner in a class for the term in one go.

Fees → Batch entry.

1 Choose the class and term

Every active learner in the class is listed.

2 Set the fee

Type the fee once and press Apply to fill it for everyone, and set one due date. Change any learner's fee individually if needed.

3 Record payments now (optional)

Enter any payment already received in "Payment now"; "Balance after" updates as you type.

4 Save all

Press "Save all". Learners already billed for the term keep their record and are updated rather than billed twice.

9.3 Record a payment

For cash, cheques, bank deposits and M-Pesa messages you receive yourself. Online payments made through the learner's portal are recorded automatically.

Record payment ×

Guardian name

Phone (optional)

07XXXXXXX

Notes

Record payment: the amount is filled with the balance; change it for a part payment.

1 Press Pay

On the learner's row, press Pay.

2 Enter the payment

Type the amount, the date paid (change it when recording an older slip), the method and, optionally, who paid and a note.

3 Save

The balance updates straight away, and a receipt is available from the payment history.

9.4 The payments log

The Payments tab lists every payment received, filtered by date, method (automatic or manual) and status. Unmatched online payments appear here too, with a button to assign them to the right learner.

Announcements and homework

Keep staff, learners and parents informed, and see all homework set across the school.

10.1 Post announcements

Announcements are notices for the whole school. They show on the Announcements page and on learners' dashboards.

COMMUNICATION Announcements
Post notices to the whole school, and text the important ones to guardians.

All 3 posted to the school

Important 1 flagged for attention

Mine 2 that you posted

Half-term break **IMPORTANT**
Mary Wambui · 25 Sept 2026
School closes on Friday for the half-term break and reopens the following Tuesday at 8am.

Grade 9 parents meeting
Mary Wambui · 22 Sept 2026
Grade 9 parents are invited to a meeting on Saturday at 10am in the school hall to discuss the end-of-year exams.

Science fair entries
Joseph Kiprono · 18 Sept 2026
Learners who want to take part in the county science fair should give their project titles to Mr Kiprono by Wednesday.

Announcements: important ones are highlighted.

1 Start one

On Announcements press “New announcement”.

2 Write it

Give it a short title (for example “Half-term break dates”) and the message.

3 Mark it important (optional)

Important announcements are highlighted in red on the list and on dashboards.

4 Text guardians too (optional)

Tick “Also text every guardian” to send it as one SMS to each guardian phone on file for active learners. SMS costs apply, and you are shown how many messages will go out.

5 Post

Press Post. You can edit or delete your own announcements later from the list.

- Search, or filter to Important or to the ones you posted.

10.2 Writing an announcement

Keep the title short; it is what people see first on their dashboards and in the SMS.

The image shows a screenshot of the Skulbase interface. On the left is a dark sidebar with the 'Demo Academy Admin workspace' header and a search menu. Below the search menu are sections for 'ACADEMICS' (Exams & Marks, Report Cards, Attendance, Analytics, Calendar, Timetable, Exam Papers, Professional Records) and 'Users' (Users, Settings, Help & guide). At the bottom of the sidebar is a user profile for 'Mary Wambui' (Admin). The main content area is titled 'COMMUNICATION Announcements' and shows a list of announcements. The first announcement is 'Half-term break' by Mary Wambui, dated 25 Sept 2026, marked as 'IMPORTANT'. The second is 'Grade 9 parents meeting' by Mary Wambui, dated 22 Sept 2026. The third is 'Science fair entries' by Joseph Kiprono, dated 18 Sept 2026. On the right, a 'New announcement' modal form is open. It has a 'Title' field with the placeholder 'e.g. Half-term break dates' and a character count '0/200'. Below is a 'Message' field with a rich text editor toolbar (Bold, Italic, List) and a text area with the placeholder 'Write the announcement...'. Below the text area is a note: '0/5000 - **bold**, *italic* and lists are supported'. At the bottom of the form are two checkboxes: 'Mark as important' (with a description 'Highlighted in red on the list and on dashboards.') and 'Also text every guardian'. 'Cancel' and 'Post' buttons are at the bottom right.

A new announcement, with the option to text every guardian.

10.3 Set homework and mark it

Assignments is where homework is set for a class. Learners see it on their dashboard, hand it in there (typed or as a file), and you grade it here.

Assignments: every piece of homework set across the school.

1 Set an assignment

Press “New assignment”. Choose the class and subject, give it a title and a due date, add instructions, and attach a file (up to 10 MB) if you like.

2 Follow progress

The tiles at the top filter to Upcoming, Past due, Set by me and All. Each card shows how many learners have handed in.

3 Mark the work

Open the hand-ins, read each learner’s answer or open their file, and give a grade from 0 to 100 with optional feedback. Learners see the grade and feedback on their dashboard.

- Work is due at the end of the due date, not at midnight before it.
- Teachers can edit and grade only the assignments they set; administrators can manage all of them.
- Once you have graded a hand-in, the learner can no longer replace it.

Analytics

Analytics compares performance across the school: class by class, subject by subject, term by term.

11.1 Reading Analytics

Choose a class (or all classes), an academic year and a term. The page shows averages and pass rates against your pass mark, which classes and subjects are strongest and weakest, and which classes still have exams to mark.

Analytics for the whole school.

Tip: The filters are kept in the page address, so you can bookmark or share a view (for example Grade 8, Term 2).

Other modules

Each optional module has its own illustrated guide for the people who run it, and you can open every one of them as administrator. They are all under Help & guide and at skulbase.com/help.

12.1 Where each module is explained

Share the right guide with each person when you assign their duty.

- Calendar, timetable, exam paper bank, professional records and CBC assessment: the Academic leadership guide (and the teacher guides for the teacher side).
- Billing (vote heads, fee structures, invoicing, bursaries) and expenses: the Bursar and finance guide.
- Boarding (roll calls, exeats, dorms, inspections) and discipline: the Boarding and discipline guide.
- Health and the sick bay: the School nurse guide.
- Transport and live bus tracking: the Transport guide.
- Library, inventory and staff leave: the Library, stores and HR guide.
- The parent portal: the Parent guide.

On your phone

Skulbase works fully on a phone.

13.1 Using Skulbase on a phone

Every page works on a phone. Tables turn into cards, and the menu moves to the bottom of the screen.

The administrator dashboard on a phone. The bottom bar holds Dashboard, Exams, People and Fees; everything else is under More.

- Use a current version of Chrome, Safari or Samsung Internet.
- Mark entry keeps your work on the phone if the network drops, and saves it when you are back online.

- Downloads such as report cards open in your phone's PDF viewer, ready to share on WhatsApp or print.

Getting help

Most questions are answered on the page itself: many pages have a “How to” panel at the bottom. For anything else, these are the places to go.

14.1 Where to get help

This guide is always available from Help in the menu, and as a PDF you can download and print.

- Your school administrator can add or reset accounts, fix classes and subjects, and change school settings.
- For problems with Skulbase itself, use the contact page at skulbase.com/contact, or call 0740 129 444.
- When you report a problem, say which page you were on, what you pressed and what you expected. A screenshot helps.
