Using Skulbase on a phone

Getting started

Your school administrator creates your account and gives you an invite code. You activate it once, then sign in with your username or email.

1.1 Activate your account with an invite code

Teachers, staff and learners do not sign up on their own. Your school adds you, and you get a personal invite code (or a link that has the code in it) to set up your login.

Activate your account

Enter the invite code from your school to get started.

Invite code

A 7 X 3 K 9

6 letters and numbers from your school. You can also paste the link you were sent.

[Continue →](#)

No code yet? Ask your school administrator. They can send it to you as a link.

Already activated? [Sign in](#)

Setting up a new school? [Create an account](#)

Need help? [Read the user guides](#)

Activating an account: type the invite code from your school, or open the link they sent you.

- 1 Get your code**

Your school administrator gives you a six-character invite code, for example A7X3K9, by SMS, WhatsApp, on paper, or as a link. The code only works for your account.
- 2 Open the activation page**

Tap the link you were sent, or go to skulbase.com, choose Sign in and then “Activate your account”. If you opened a link, the code is already filled in.
- 3 Check it is you**

Press Continue. Skulbase shows the name the school registered. If it is not you, choose “Not you?” and ask the school for the right code.

4 Choose how you will sign in

Pick a username (one is suggested for you) and a password of at least 8 characters, or continue with Google. Adding an email address lets you reset your password yourself later.

5 You are in

You are signed in straight away and land on the home page for your role.

Good to know: Each code can be used once. If yours says it has expired or was already used, ask your administrator to reset your account; they get a fresh code in seconds.

1.2 Sign in

Once your account is active, sign in with your email address or username and your password, or with Google if you activated with Google.

The image shows the Skulbase sign-in page. At the top is the Skulbase logo, a blue square with a white 'S' and a graduation cap. Below the logo is the text 'Welcome back' and 'Sign in to your Skulbase account to continue'. The main sign-in form has two input fields: 'Email or Username' and 'Password'. The 'Email or Username' field has a placeholder 'Enter your email or username'. The 'Password' field has a placeholder 'Enter your password' and a 'Forgot password?' link. Below the password field is a purple 'Sign In' button. Under the button is the text 'or continue with' and a 'Sign in with Google' button. At the bottom of the page, there are links for 'Don't have an account? Create one', 'First time? Activate your account', and 'Need help? Read the user guides'. At the very bottom, it says 'Access is role-based · Admin · Class Teacher · Subject Teacher · Student'.

The sign-in page. “Forgot password?” sends you a code by email.

1 Go to the sign-in page

Open skulbase.com and choose Sign in.

2 Enter your details

Type your email address or username, then your password, and press Sign In. Or press “Sign in with Google”.

3 Forgot your password?

Choose “Forgot password?”, enter your email address, and type the six-digit code we email you along with a new password. This also works if you have only ever used Google, and afterwards both ways work.

 **Tip:** Save skulbase.com to your phone’s home screen. It opens like an app and remembers you are signed in.

1.3 Finding your way around

The menu only shows the pages your role can use. On a computer it runs down the left-hand side; on a phone the main pages sit in a bar along the bottom.

- On a computer, the arrow at the top of the menu makes it narrower (icons only) or wider (icons and names). Skulbase remembers your choice.
- Press the / key, or tap “Search menu”, to jump to any page by typing part of its name.
- Your name at the bottom of the menu opens your account menu: switch between light and dark appearance, or sign out.
- If you hold more than one role (for example an administrator who is also a class teacher), use “View as” in the account menu to switch views.
- On a phone, the bottom bar shows your four most-used pages. Everything else is under More.

Your dashboard

Your dashboard leads with the job that matters most in a term: getting marks in.

2.1 Reading your dashboard

The top shows where the school is in the term and how many marks you still have to enter. The big button takes you straight to the next mark sheet to finish.

A class teacher's dashboard.

- “Continue: Mathematics · Grade 7 East” opens the exam you were part-way through, or the next one to start.
- At a glance: marks still to enter, exams fully marked, learners in your class, and your class average.
- My marking lists every exam you enter marks for this term, with how many learners are marked. Tap one to open its mark sheet.
- Quick actions open marks, class results, report cards, attendance and your class list. “Coming up” shows exams in the next three weeks.
- If report cards are still to be generated for your class, a reminder appears on the right.

Exams and marks

Entering marks is the main job in Skulbase. You only see the classes and subjects your administrator has assigned to you; if one is missing, ask them to add it on the Subjects page.

3.1 Enter or correct marks

Marks go in on Exams & Marks, on the “Enter & Correct Marks” tab. You pick the term, the exam, the class and the subject, and a mark sheet opens with every learner in the class.

Choose the term (the current one is marked NOW), then the exam, then the class and subject.

1 Open Exams & Marks

Choose Exams & Marks in the menu. The “Enter & Correct Marks” tab is open.

2 Choose the term

The current term is selected for you and marked NOW. Pick another term to correct older marks.

3 Choose the exam

Tap the exam, for example Midterm or Endterm. Only exams your school has set up for that term are shown.

4 Choose the class and subject

Pick the class, then the subject. Teachers only see the classes and subjects they teach.

5 Open the mark sheet

Press “Open mark sheet”. Saved marks are already filled in.

3.2 Using the mark sheet

The mark sheet lists every learner with a box for their score. The grade fills itself in from your school's grading system.

The screenshot shows the 'Exams & Marks' interface in the Demo Academy Admin workspace. The left sidebar contains navigation links for Dashboard, Exams & Marks (selected), Report Cards, Attendance, Analytics, People, Classes, Subjects, Users, and Settings. The main content area is titled 'Exams & Marks' and includes a sub-header 'ENTERING MARKS FOR Mathematics · Grade 7'. Below this, there are tabs for 'Type marks', 'Upload file', and 'Scan sheet'. A progress bar indicates 'Mark sheet 9 of 12 entered 75% · Out of 100'. A search bar and filters are present, showing 'All 12', 'Not entered 3', 'Entered 9', and 'Unsaved 0'. The table below lists learners with their scores and grades. The first learner, Amani Otieno, has a score of 33 and a grade of AE — App. The second learner, Esther Nyambura, has a score of 65 and a grade of ME — Me. The table also includes a 'STATUS' column with 'Saved' and 'Unsaved' indicators.

#	LEARNER	SCORE /100	GRADE	REMARKS	STATUS
1	Amani Otieno 2400 · Grade 7 East	33	AE — App	Optional remark	✓ Saved
3	Esther Nyambura	65	ME — Me	Optional remark	✓ Saved

The mark sheet: type a score, press Enter to move to the next learner, then Save changes.

1 Type the scores

Click the first score box, type the mark and press Enter to jump to the next learner. The grade appears as you type. Remarks are optional.

2 Save

Press “Save changes” at the bottom. The bar tells you how many learners still have no mark.

3 Correct a mistake

Find the learner with the search box, type the right score over the old one, and save. Undo puts a mark back as it was; the bin removes a mark for a learner who did not sit the exam.

4 Filter the list

Use the tabs (All, Not entered, Entered, Unsaved) and the stream filter to find who is left.

- “Online” at the top right shows the sheet is connected. If the network drops, your typing is kept on this device and saved when you are back online.
- Scores are out of the exam’s maximum (shown at the top, for example “Out of 100”).
- A subject with several papers can be split with “Split into papers”; each paper then gets its own column and the final mark is worked out for you.

3.3 Upload marks from a spreadsheet or a photo

Instead of typing, you can upload an Excel or CSV file, or take a photo of a handwritten mark sheet.

“Upload file” reads marks from Excel or CSV; “Scan sheet” reads a photo of a paper mark sheet.

1 Upload a file

On the mark sheet choose “Upload file”, pick your Excel or CSV file, and check the columns Skulbase detected (learner, admission number, score). Press “Validate & Preview”, check the rows, then save.

2 Scan a paper sheet

Choose “Scan sheet” and take or upload a clear photo. Skulbase reads the names and scores; check every row, fix anything misread, and confirm. Nothing is saved until you confirm.

 **Tip:** Admission numbers are the most reliable way to match rows to learners. Keep them in your spreadsheet.

3.4 Release results to learners

Marks stay private to staff until they are released. Releasing a subject lets learners see its marks in their portal and on the report card's QR check.

The screenshot shows the Skulbase Admin workspace. On the left is a dark sidebar with a search menu and navigation links for Dashboard, Exams & Marks (selected), Report Cards, Attendance, Analytics, People, Classes, Subjects, Users, and Settings. The main area is titled 'ACADEMICS Exams & Marks' with a sub-header 'Enter or correct marks, review results, and release them to learners.' Below this are three tabs: 'Enter & Correct Marks', 'Results & Reports', and 'Release Results' (which is active). A blue information box states: 'Releasing a subject lets learners see its marks in their student portal and on the report-card QR check. Staff always see every mark. You can still correct marks after releasing, and you can withdraw a subject at any time.' Below this are filters for Class (Grade 7 East), Term (Term 3), and Exam (Midterm selected, Endterm available). A 'Subjects' section shows a progress bar for '7 of 7 released to learners' and an 'All released' button. Three subjects are listed: Creative Arts & Sports, English, and Integrated Science, each with '6 learners marked' and a 'Learners can see' status. Each subject has 'Correct marks' and 'Withdraw' buttons.

Release Results: each subject shows how many learners are marked and whether learners can see it.

1 Open the Release Results tab

On Exams & Marks choose “Release Results”.

2 Choose the class, term and exam

The list shows every subject for that exam and how many learners have marks.

3 Check the ranking preview

Scroll down to see the class ranking the release would produce, and any learners with missing papers (a missing paper counts as 0).

4 Release

Release a single subject, or all of them at once. Released subjects show “Learners can see”.

- You can still correct marks after releasing; learners see the corrected mark.
- “Withdraw” hides a subject from learners again at any time.

3.5 See a class’s results

The “Results & Reports” tab on Exams & Marks shows how a class did: every subject side by side, one exam at a time, the analysis, and individual report cards.

The screenshot shows the 'Exams & Marks' interface in the 'Admin workspace' of 'Demo Academy'. The left sidebar contains navigation links for Dashboard, Exams & Marks (selected), Report Cards, Attendance, Analytics, People, Classes, Subjects, Users, and Settings. The main content area is titled 'ACADEMICS Exams & Marks' with a subtitle 'Enter or correct marks, review results, and release them to learners.' Below this are three tabs: 'Enter & Correct Marks', 'Results & Reports' (selected), and 'Release Results'. The 'Results & Reports' tab shows a filter for 'Class / Stream' set to 'Grade 7 East' and 'Exam' set to 'English Midterm — English (MIDTERM)'. Below the filters, it shows 'English · English Midterm Out of 100' and 'Results status: Released' with a 'Withdraw' button. There are also buttons for 'All subjects', 'Single exam' (selected), 'Analysis', 'Quick entry', and 'Reports'. At the bottom, it says '11 students · Tap the pencil to edit a result' and has 'Export CSV' and 'Export PDF' buttons. A message says 'Spotted a wrong mark? Tap the pencil on the learner's row to fix it, or open the mark sheet to correct several at once.' with a 'Correct marks' button. A table shows the results for the first student:

POSITION	STUDENT	ADM NO	SCORE	GRADE	TOTAL PTS	OVERALL	REMARKS	EDIT
1	Amani Otieno	2400	88%	EE	—	—	—	

Results & Reports: choose a class, then an exam, to see its results.

- Choose a class, then an exam, to see the broadsheet and rankings.
- Click a learner to download their PDF report card, or generate the whole class at once.

Your class

As class teacher you keep the register and the class list, and produce your class's report cards.

4.1 Take the daily register

Attendance holds one register per class per day. Mark each learner Present, Absent, Late or Excused, add a reason if you like, and let guardians of absent learners know by SMS.

The screenshot shows the 'Attendance' page in the Skulbase Admin workspace. The sidebar menu on the left includes options like Dashboard, Exams & Marks, Report Cards, Attendance (selected), Analytics, People, Classes, Subjects, Users, and Settings. The main content area displays the 'Attendance' section for 'Grade 7 East' on '09/27/2026'. It shows a summary of attendance: 7 Present, 1 Absent, 1 Late, 0 Excused, and an overall 89% attendance rate with 3 unmarked students. Below this, there is a search bar and buttons to 'Mark 3 unmarked present', 'Notify guardians', and 'PDF'. A list of learners is shown with their names, admission numbers, and status buttons (Present, Absent, Late, Excused). The learners listed are Amani Otieno (2400), Wanjiku Kamau (2401), and Kevin Ouma (2402 - Unwell). A 'Save' button is at the bottom right.

The register: totals at the top, one row per learner, and a Save bar at the bottom.

1 Open Attendance

Choose Attendance in the menu. A class teacher's own class opens straight away; otherwise pick the class.

2 Check the day

Today is selected. Use the arrows or the date box to fill in an earlier day.

3 Mark each learner

Tap Present, Absent, Late or Excused on each row. To save time, press "Mark N unmarked present" and then change only the exceptions.

4 Add a reason (optional)

The note icon at the end of a row adds a reason, such as "Unwell". It shows under the learner's name.

5 Save

Press Save at the bottom. Unsaved changes are kept if you switch class or day by mistake: you are asked first.

6 Tell guardians

Press “Notify guardians” to text the guardian of every learner marked absent. You see who will be texted before anything is sent.

 **Tip:** PDF downloads the day’s register for printing or filing.

4.2 My Students

My Students is your class list: every learner in your class, with their admission number, guardian and contact details. Search by name, admission number or guardian.

MY CLASS

My students

The learners in your class, with their guardians. Open anyone for their full profile.

STUDENT	CLASS	GUARDIAN	STATUS	
 Amani Otieno 2408	Grade 7 East	Mr Otieno No phone	Active	 
 Wanjiku Kamau 2401	Grade 7 West	Mrs Kamau 0722 100 401	Active	 
 Kevin Ouma 2402	Grade 8 East	Mr Ouma 0722 101 402	Active	 
 Faith Chebet 2403	Grade 9	Mrs Chebet 0722 102 403	Active	 
 Esther Nyambura 2404	Grade 7 East	Mr Nyambura 0722 102 404	Active	 

My Students: your own class only.

 **Tip:** If a learner is missing or in the wrong class, or a guardian’s phone number has changed, ask your administrator to update their record. Correct phone numbers make sure SMS results and absence notices arrive.

4.3 Report cards for your class

On Report Cards, choose your class, the term and the exam, then download every card, one learner's card or the mark sheet.

Report cards: choose the class, term and exam, then an action.

1 Choose the scope

Pick your class and the term, and optionally a title and card design.

2 Choose the exam

Each exam shows how many subjects have marks. Make sure all subjects are in before printing.

3 Add your comments

Under “Comments on the cards”, write a class teacher remark for each learner (for example “Excellent progress this term”). They print on the cards.

4 Download

“Generate & download” produces every card in one PDF; “Choose learner” produces one; “Download mark sheet” gives the ranked class list.

- Sending results to parents by SMS is done by an administrator.

Homework and announcements

Set homework for your classes, mark what learners hand in, and post notices.

5.1 Set homework and mark it

Assignments is where homework is set for a class. Learners see it on their dashboard, hand it in there (typed or as a file), and you grade it here.

Assignments
Set homework for a class, attach files, and review and

Grade

Open an assignment's hand-ins to read each learner's work and grade it.

1 Set an assignment

Press “New assignment”. Choose the class and subject, give it a title and a due date, add instructions, and attach a file (up to 10 MB) if you like.

2 Follow progress

The tiles at the top filter to Upcoming, Past due, Set by me and All. Each card shows how many learners have handed in.

3 Mark the work

Open the hand-ins, read each learner's answer or open their file, and give a grade from 0 to 100 with optional feedback. Learners see the grade and feedback on their dashboard.

- Work is due at the end of the due date, not at midnight before it.
- Teachers can edit and grade only the assignments they set; administrators can manage all of them.

- Once you have graded a hand-in, the learner can no longer replace it.

5.2 Post announcements

Announcements are notices for the whole school. They show on the Announcements page and on learners' dashboards.

The screenshot shows the 'Demo Academy Admin workspace' interface. On the left is a dark sidebar with a search menu and navigation links for Dashboard, ACADEMICS (Exams & Marks, Report Cards, Attendance, Analytics), SCHOOL (People, Classes, Subjects), and FINANCE (Users, Settings). The main area displays the 'COMMUNICATION Announcements' page, which includes a summary of announcements (All 3, Important 1) and a list of recent announcements: 'Half-term break' (Important, Mary Wambui, 25 Sept 2026), 'Grade 9 parents meeting' (Mary Wambui, 22 Sept 2026), and 'Science fair entries' (Joseph Kiprono, 18 Sept 2026). Overlaid on the right is the 'New announcement' form, which contains fields for Title (e.g., 'Half-term break dates'), Message (with a rich text editor), and checkboxes for 'Mark as important' and 'Also text every guardian'. The form has 'Cancel' and 'Post' buttons at the bottom.

A new announcement: a title, the message, and whether it is important.

- 1 Start one**
On Announcements press “New announcement”.
 - 2 Write it**
Give it a short title (for example “Half-term break dates”) and the message.
 - 3 Mark it important (optional)**
Important announcements are highlighted in red on the list and on dashboards.
 - 4 Post**
Press Post. You can edit or delete your own announcements later from the list.
- Search, or filter to Important or to the ones you posted.
 - Only administrators can text an announcement to guardians. Ask your administrator if something needs to go out by SMS.

On your phone

You can enter marks and take the register from a phone.

6.1 Using Skulbase on a phone

Every page works on a phone. Tables turn into cards, and the menu moves to the bottom of the screen.

Entering marks on a phone. The bottom bar holds Dashboard, Exams, Attendance and Reports.

- Use a current version of Chrome, Safari or Samsung Internet.
- Mark entry keeps your work on the phone if the network drops, and saves it when you are back online.
- Downloads such as report cards open in your phone's PDF viewer, ready to share on WhatsApp or print.

Getting help

Most questions are answered on the page itself: many pages have a “How to” panel at the bottom. For anything else, these are the places to go.

7.1 Where to get help

This guide is always available from Help in the menu, and as a PDF you can download and print.

- Your school administrator can add or reset accounts, fix classes and subjects, and change school settings.
- For problems with Skulbase itself, use the contact page at skulbase.com/contact, or call 0740 129 444.
- When you report a problem, say which page you were on, what you pressed and what you expected. A screenshot helps.
